

HellermannTyton recognizes the importance of good environmental practice. In managing our facilities and properties and conducting all our operations, we will work towards protecting, conserving and enhancing all aspects of our environment over which we have control or influence.

To achieve this, we operate an Environmental Management System based on the requirements of ISO 14001.

We shall:

- Fully comply with, and strive to exceed, all applicable federal, state and local environmental legislation and other requirements to which HellermannTyton subscribes, which relate to its environmental aspects.
- Consider environmental factors when making planning, designing, purchasing and operating decisions.
- Identify the significant environmental aspects of our company's activities arising from raw materials, products, processes, services and wastes.
- Continually review and improve the environmental performance of our company, this policy being the framework for setting environmental objectives and targets.
- Raise awareness and understanding of all staff, suppliers and contractors about the company's environmental policy and environmental management procedures.
- Work toward the reduction or control of any actual or potential pollution.
- Strive to protect the health and safety of our employees.
- Promote optimum and efficient use of resources and energy.
- Communicate our commitment to environmental management to our customers and the community.
- Willingly share information on our environmental performance and the operation of our Environmental Management System with our stakeholders.
- Ensure these aims are achieved by using appropriate documentation procedures and management systems that will be systematically monitored, audited, reviewed and improved.

This Policy is communicated to all persons working for or on the behalf of HellermannTyton and is available to the public.

Date: 5/15/2017

Terry Tuttle, President
HellermannTyton Corporation
