Features and Benefits

- Split wrap design installs quickly, saving assembly time and future accessibility without disassembly.
- Unique construction retains shape and rigidity throughout unrolling.
- Easy open design allows quick assembly, future access, and ability to apply protective sleeving post assembly or post installation situations.

Product Description A lateral split, semi-rigid braided sleeving configuration used when ease of installation and repeat access to wire bundle is required. The lateral split allows the sleeving to open and accommodate a variety of bundling requirements. The 25% edge overlap rolls back over connectors and splices without exposing the bundled wires.
