Base Data

Local Order Number IMP2.5W1.7510H4

Type IMP2.5

Color White (WH)

- Features and Benefits**
- Identification Marker Plates can be marked with a permanent pen, printed labels or hot stamped for a wide variety of labeling options.
 - Any size bundle diameter can be marked because it is only dependent upon the length of the cable tie selected, provided the cable tie width does not exceed .29".
 - The marker plates are stamped from nylon, making them a durable and long term method of identification. The mounting holes allow the marker to be mounted as a flag, tag or wrapped around the cable or bundle for a wide variety of installed positions.

Product Description Identification Marker Plates can be mounted in any direction, either vertically or horizontally as flags, tags or wraparound identification plates. They can be marked with HellermannTyton marking pens (T82-R or T82-S), thermal transfer or laser labels or hot stamped. The markers are manufactured from nylon and are white in color.
